

# PRADHUMAN SINGH CHOUHAN

SOC ANALYST

## CONTACT

- +91 7726038590
- pradhumanchouhan241@gmail.com
- Rajasthan, Jaipur

## PROFILES

- Psc06
- Pradhuman Singh Chouhan
- Pradhumanchouhan

## EDUCATION

- Cambridge Court World School (2022-2024)
- JECRC University (2024-2028)

## SUMMARY

Cybersecurity enthusiast with strong hands-on exposure to SOC operations, threat detection, and incident analysis through extensive practical labs on TryHackMe. Solid understanding of networking fundamentals, Linux, SIEM concepts, and common cyber threats. Actively seeking an entry-level SOC Analyst role to apply analytical skills and continue developing expertise in blue team operations.

## SKILLS

- Networking** : TCP/IP, DNS, HTTP/HTTPS, Firewalls
- Operating Systems** : Linux (Kali, Ubuntu), Windows
- Security Concepts** : SOC Operations, Incident Response, MITRE ATT&CK, Kill Chain
- SIEM & Monitoring** Splunk (basics), Log Analysis
- Tools** Wireshark, Nmap, Metasploit (basic)
- Threats** Phishing, Malware, Brute Force, DDoS (theory)
- Scripting** Bash (basic), Python (basic)

## PROJECT

- Completed 50+ hands-on labs on TryHackMe covering SOC analysis, log monitoring, and threat detection
- Investigated simulated security incidents including brute-force attacks, phishing emails, and malware behavior
- Analyzed logs using Splunk to detect suspicious activity and create alerts
- Performed network traffic analysis using Wireshark to identify malicious patterns
- Conducted vulnerability scanning using Nmap
- Mapped attacks to MITRE ATT&CK framework

## CERTIFICATIONS

- ECSS – Certified Cyber Security Specialist
  - Networking fundamentals, SOC basics, security principles
- CPPS – Certified Professional in Python Scripting
  - Python basics for automation and security use cases
- CSSU – Certified Security System User
  - Security awareness, system usage, and best practices
